

Membership of the RANZCOG Research Foundation is open to all members of the Royal Australian and New Zealand College of Obstetricians and Gynaecologists (RANZCOG) and to all others with an interest in the aims and objectives of the Foundation.

**RANZCOG
Research Foundation**

Medical research in Australia and New Zealand is internationally recognised for its excellence. By joining the RANZCOG Research Foundation, you are directly contributing to this research and in particular, to the future of women's health.

The Foundation also welcomes donations. Both membership fees and donations are tax deductible.

DID YOU KNOW?

RANZCOG RESEARCH FOUNDATION FACT SHEET

- The RANZCOG Research Foundation encourages and supports research in the fields of obstetrics, gynaecology, women's health and reproductive sciences and specifically provides support for scientific and clinical research through research fellowships, scholarships and travel grants. The Foundation especially supports the development of the research careers of trainees and early career Fellows of the Royal Australian and New Zealand College of Obstetricians and Gynaecologists (RANZCOG).
- The RANZCOG Research Foundation works closely with the RANZCOG Executive, Council and Council Committees to further the needs for research and research training in the broad fields of obstetrics, gynaecology, women's health and reproductive sciences.
- For almost 50 years, the RANZCOG Research Foundation has been supporting research training for promising young Australian Fellows and scientists who undertake high quality research and research training at an early stage of their careers.
- The RANZCOG Research Foundation disburses approximately \$120,000 annually towards basic and advanced research training in obstetrics, gynaecology and in women's health.
- Scholars have a strong record of subsequent achievement in research and in academic careers in Australia and overseas.
- The RANZCOG Research Foundation has sponsored young Fellows and scientists in undertaking innovative research in a number of exciting projects in recent years. For example, stem cells from human endometrium.
- The RANZCOG Research Foundation recently made the decision to enhance its support for RANZCOG trainees in their research endeavours during the FRANZCOG training program.
